WO IMPORTANT EXPEDITIONS. - Le egraph, Dec. 13.]-In a few days, if w hours, the Challenger will start of ly little matter. The Challenger, however, its upon no ordinary cruise. After a brief to Lisbon, Gibraltar and Madera, she will detected the great basin of the Atlante. Thence will fight her way southward to the mystes regions of thick ribbed are that hem in Southern Pole. Thence again she will

floes up Baffin's Bay. Thus will North Pole and South Pole be simultaneusly exched out. OPEN FIRES.—In every home here should be at least one open grate, or smill other ar-rangement for burning wood of ft or hard and tongs—and fender, too, if of please—which will attract the family by it finds influences, is a grand thing in a bout. Those black, grim, tartarean flues, filed with the stale odors of cellar and hot air amber and seething water tank, and emitting clouds of palverized ashes to cover your fariture and suffice your lungs, are among the gratest banes of family enjoyment and comfort. It is all well esough to have one's dwelling sarmed from top to bottom, and to have no wals to carry byond the furnace, but this betting system his done immense mischief to the family pow-es, scattering the members of it all over the house, and furnishing not one structive spot it which the inmates will gather, as by instinct the do, to enjoy the cheery confort of the freside. There is no fireside inmost of our odern houses. There are only holes in the order in the walls. And we are disposed to that the good ventilation of he open fire danot a little to the unconscious blessings of hospitable and domestic influence. The the of the little folks, as they st musing and

epper wire, an electric magnet, and an ebonite a dregulates the whole current towing from the battery and the cable. Acid on by this current the ink, as already stated, quirts from tle aphon, and writes a successed of dots and dates, which represent the letter of the al-

Lydia Studley, who was padoted from the Riode Island State Prison Febray 23, 1871, after serving twelve years of a resentence for the murder of her husband in Valley Falls, dedion the 17th, aged eighty to years. She was pardoned because her great ge and increasing infirmitics rendered it eat in that but little of life remained to her, and he was judiciously permitted to die with he kindred. The injugest upon the hody of her stband, exhuinjuest upon the body of her uband, exhumation of the remains of a forer husband, her trial, conviction and sentend reated a deal of excitement in the north part of the State

If any one knows where the dilloxera has its origin in America he would well to send his information to the Frend Academy of Sciences, where it will be than by received.
This terrible insect is making the adful havoc among the vineyards of Frances do as no remedy for the evil has yet been covered, the Academy thinks that the wise clan would be ce it back to its origin in secontry with the work multiplication is here in ented. sive multiplication is here p ented.

MEDICAL.

BALTO. LOCK HOSPITAL.

DR. JOHNSTON, Physician of this celebrated institution, has dis-

covered the most Certain, Speedy, Pleasant and Effectual Remedy in the world for ail DISEASES OF IMPRUDENCE. Weakness of the Back or Limbs, Strictures,

Affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, General Debility, tary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight, or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youth—secret and solitary practices more fatal to their victims than the songs of the Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, &c.

YOUNG MEN.

Especially, who have become the victims of Solitary Vice, and dreadful and destructive habits which annually sweep to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to extact the living lyre, may call with full confidence.

MARRIAGE. Married persons, or Young Men contemplat-ing marriage, aware of Physical Weakness Loss of Procreative Power-Impotency,) Ner-

vous Excitability, Palpitation, Organic Weak-ness, Nervous Debility, or any other Disquali-fication, speedily relieved.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentle-man, and confidently rely upon his skill as physician.

ORGANIC WEAKNESS.

Immediately cured and Full Vigor Restored. This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgencies. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the natural powers are lost sooner by those falling into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened. Loss of Procreative Power Nervous, Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility, and Wasting of the Frame, Cough, Consump-tion, Decay and Death.

A CURE WARRANTED IN TWO DAY Relief in Six Hours! No Mercury!

DR. JOHNSTON. Member of the Royal College of Surgery of London, Graduate of one of the most eminen Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended

Persons ruined by Ignorant, Trifling Pretenders and their Deadly Poison, should apply imme-

sometimes with derangement of mind, were cured immediately. TAKE PARTICULAR NOTICE. themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting

them for either business, study, society or mar-These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symtoms of Consump-

MENTALLY.-Tre fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Fore-bodings, Aversion to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils

produced. Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and

emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption. YOUNG MEN

Who have injured themselves by a certain practice, already described, a habit frequently learned from evil companions or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.
What a pity that a young man, the hope of

life by the consequence of deviating from the path of nature, and indulging in pernicious habits. Such persons must, before comtemplat-

his country, the pride of his parents, should be snatched from all prospects and enjoyment of

ing. MARRIAGE Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

DISEASES OF IMPRUDENCE. When the misguided and imprudent votary o pleasure finds that he has imbibed the seeds o this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery de ters him from applying to those who, from edu cation and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease makes their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease be-

death puts a period to his dreadful suffering, by sending him to that undiscovered country "from whence no traveller returns." whence no traveller returns."

It is a metancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskilful PRE-TENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy suf ferer month after month taking their noxious or injurious compounds, and instead of being re stored to a renewal of Life, Vigor and Happiness in despair leaves him with ruined Health to sigh over his galling disappointment.

comes a horrid object of commisseration till

g three years' voyage of discovery as rech. Singularly enough, it is now as are may be a hundred years since Cook so on his memorable expedition. A hundred reshave done great things for us; and in se days of screw steamers and ocean telephas a voyage round the world is a comparably little matter. The Challenger, however, its upon no ordinary cruise. After a brief to Lisbon, Gibraltar and Madera, she will ad twelve entire months in thoroughly exing the great basin of the Atlanc. Thence

the Southern Pole. Thence agin she will wing her way to Australia and New Zealand, and so through the coral ocean to Japan, returning homeward by the Pacific Nor will the fallant vessel be alone in the talk. It now seems more than probable that yet another expedition will be sent out to exter the unknown regions round the North ble Sailing through Davis' Straits and Baffi's Bay into Smith's Sound, Kane, in 1854, which north Smith's Sound, Kane, in 1854, sheed north of Cape Constitution a boundless open pelar sea, teeming with animal life. Its now proposed that, as a complement to teldeep sea voyage of the Challenger, yet a soul expedi-tion should be despatched to viz the north coast of Greenland, and to make way to Kape's open ocean, and it is undersood that Mr. Gladstone has consented to re re a deputation which will urge upon him a advisability of opening the national pursarings for this adventurous effort. Should be memorislists carry their point, we sha have con-jointly at work an Arctic and an Atactic expe-dition. The Challenger with her as stores of scientific apparatus, will be beating and about the Southern Pole, while her size ship will be making the best of her way again the cruel

coal. A fire which can be seen a rell as felt
